

Beam Data Brand Identity Reference

Compact source-of-truth for GTM agents. Built from approved handoff facts; official real logo is embedded.

01 Brand Essence

Role: practical AI transformation partner for enterprises. Beam Data helps organizations build AI confidence through customized products, services, and technical capability.

Personality: optimistic, clear, warm, collaborative, adaptive, enterprise-credible, practical.

Avoid: dark cyber/security look, orange beam motif, generic AI hype, impossible promises, heavy jargon.

02 Visual System

Primary Navy
#1E2660

Hot Pink
#E8366E

Deep Plum
#4C2766

Deep Navy
#1B1A4D

Peach
#F7A77E

Magenta Plum
#B22D6B

Coral/Pink
#D6356E

Warm Gold
#E8B584

Element	Rule
Logo	Use official asset. Recognition: navy capital B with four triangular blades in peach/pink/magenta/plum. Do not redraw for production.
Gradient	Approved diagonal family: warm gold -> coral/pink -> deep navy/plum. Use in footer, CTA strips, banners.
Typography	Preferred: Poppins-like rounded geometric sans. Fallback: Liberation Sans / Noto Sans.
UI style	Rounded white cards, thin grey borders, light SaaS-consulting feel, soft pastel isometric illustrations.

03 Core Values and Pillars

Value	Meaning	Content implication
Innovation	Practical AI/data value	Show useful capability, not buzzwords.
Collaboration	Work with client teams	Use partnership and enablement language.
Adaptability	Fit context and maturity	Emphasize tailored, flexible, scalable approaches.
Client Success	Outcomes and adoption	Tie claims to readiness, productivity, confidence.

Pillar	Use in GTM messaging
AI Product	AI Hub, agentic workflows, enterprise knowledge, AI-powered chat.
AI Services	AI readiness, consulting, implementation, enablement, adoption support.
Data Capability	Data foundations, knowledge access, governance, analytics readiness.
Tech Capability	Engineering, integration, deployment, scalable technical delivery.

04 Voice and Messaging Rules

Voice: clear before clever; credible but not stiff; warm and practical; outcome-focused without exaggeration.

Do	Don't
Help enterprise teams adopt AI with confidence.	Revolutionize everything with AI instantly.
Make organizational knowledge easier to access and use.	Unlock limitless intelligence.
Support selected workflows with governed AI automation.	Replace every workflow overnight.
Tailored to maturity, teams, and operating model.	One-size-fits-all AI for every company.

05 AI Hub Product Messaging

Field	Guidance
Short description	AI Hub helps enterprise teams adopt AI through AI-powered chat, enterprise knowledge access, and agentic workflow automation.
Audience	Enterprise data, AI, and IT leaders evaluating AI platforms.
Positioning	Practical enterprise AI platform for governed knowledge access and workflow automation.
Value	Improves AI readiness, productivity, and access to organizational knowledge.
Use with care	Model-agnostic architecture, flexible deployment, governance, and RAG only when supported by retrieved company knowledge.
Avoid	Guaranteed accuracy, full employee/software replacement, unlimited free usage, automatic legal compliance, unsupported geographic dominance.

06 Agent Instructions

Agent	Instruction
Research	Identify market, audience, competitors, channels, risks. Select competitors by comparability, not just size.
Strategy	Convert research into ICP, positioning, value proposition, messaging pillars, and channels.
Content	Create concise, specific, outcome-focused assets. Use confidence, readiness, knowledge access, governed adoption.
Brand Alignment	Review only. Check accuracy, tone, unsupported claims, audience fit, sources, and ready-to-use status.

07 Fast Validation Checklist

On-brand if it...
Uses clear enterprise AI/data language; feels warm, modern, and credible; connects AI to practical business outcomes; uses navy/coral/gold visual system; avoids dark cyber aesthetics and generic AI hype; does not invent unsupported product claims.
